

FITNESS HOT SPOT

# TRIBEFIT

We thought TribeFit deserved to be highlighted for many reasons. For one, it focuses on 'social fitness' – getting fit and connecting

with people. TribeFit also has a café on its premises (where we hung out after a good workout) that serves healthy and delicious food;

anything eaten here is a guilt-free indulgence. While you can get great classes at many places, we love the fact that working out

is not 'work' here; it's just an excuse to hang with friends in a lounge set in a raw, urban and funky environment.
